

United S.p.A. is an international experienced Italian company, dealing with planning implementation and urban areas regeneration. The Group's companies guarantee services and consultancy at every stage of its implementation: from conception to planning, from the site's risk analysis to its management, from remote monitoring to on-site supervision, from the environmental regulation compliance control to realized safety management. Security, safety, legality, risk prevention, quality of life and enhancement of real estates are the objectives pursued. All risk aspects are analyzed by using a proprietary methodology that guarantees business continuity and project development thanks to cutting-edge technological solutions, as well as regulatory compliance and the highest ethical standards.

Our mission is to guarantee, thanks to our experience and acquired skills, an integrated and coordinated response to both organization and individual security requests. The management of an integrated method, which is unique in the market, is what our companies can promise.

We operate throughout Italy with United Risk Management S.p.A., United Consulting Engineering Srl and U.lab Srl. Whereas abroad, we are present in Africa, based in Senegal (Dakar), and in the United Arab Emirates, based in Abu Dhabi.

"Our mission is to protect clients by

"United, before being a Group of companies, is a team of people that shares, in some cases even unconsciously, a value system that is reflected in internal and external relationships, from collaborators to customers. Over time it has developed itself in a natural way through behaviors, choices and actions that all of us have taken on in a sort of involuntary syncretism of principles in which we recognize ourselves and which probably leads us instinctively. This is to us the greatest asset and the basis on which I want to continue building, together with you, the future of our Group".

Carlo Mastrangelo

CEO United S.p.A.

***supporting them using solutions that
respect all ethical and legal values”***

United Group is characterized by a unique approach which effectively combines the values of ethics and legality with the best technological solutions on the market. We believe that ethics represent a competitive factor that must be declined with innovation while respecting the environment. Choosing United means relying on a partner who has made legality and transparency an absolute value, and that guarantees customers the perfect compliance with all existing safety and security standards.

CHOOSING UNITED MEANS:

To be supported by a sole speaker, able to provide and manage a wide range of security and risk

The management of services, in the full respect of the law and environment

An integrated approach, that ensures resolutions and fulfills the management of intervention requests and consultancy in the field of safety

To guarantee a collaboration with the most qualified operators nationwide

A 360° experience in the safety management gained over the years (urban security, security & safety, smart-city, consulting, compliance, risk management, etc.)

To have the best economic solution on the market, in full compliance with pre-established quality standards

"United Group, thanks to an innovative, multidisciplinary and integrated approach, poses itself as the sole speaker in these areas"

Safety, security and compliance, throughout all the development, management, monitoring and valorization of real estate assets

Specializing in the design and supervision of planting system projects

Risk management for major projects, construction sites and high attendance areas

Urban security: innovative technological implementation in the security sector and strategic consulting for urban well-being towards sustainable models

International security & safety development: conceiving models for the international development in security and safety areas

Environmental security

Services for international investors in the field of corporate crime prevention for the selection of Italian companies thanks to the proprietary URKA platform

Risk assessment

Clients' security systems and procedures analysis and auditing, as a support throughout technological scouting, operational criteria evaluation and maintenance services programming phases in the safety and security field

Private, civil and criminal investigation services for international investors along with a qualified team and track record preventing environmental crimes as well as organized ones

Support for international investors in the activation of an integrated security system, based on the collection of information and control activities (preventive and in progress), in which rules are shared and then applied in agreement with local authorities, to create a vision of intent and shared objectives for greater protection and enhancement of the clients' assets

Notarization services on blockchain

United Group's multidisciplinary expertise enables to support public and private architecture and designers studies, both in Italy and abroad

"Our mission and our skills are translated concretely throughout all our companies, thus the Group is the ideal speaker in the 360° world of security"

SAFETY, SECURITY AND COMPLIANCE WITH A MULTIDISCIPLINARY AND INTEGRATED APPROACH

UNITED RISK

“Our Integrity Management system is based on ethical and legal principles that respect people and the environment”

SAFETY SECURITY & COMPLIANCE

United Risk Management S.p.A. is the Italian leader in the field of security, safety and compliance of the redevelopment, management and real estate development activities. Its integrated safety and risk management system is based on a proprietary methodology that integrates consulting services, investigative activities and the use of the most modern technologies aiming to prevent the risks of crime in all its expressions. It is provided with a supervisory institute and a UNI 10891:2000 certified 24/7 operational centre.

Available to Italian and international clients, a team of highly specialized professionals managing and coordinating the monitoring phases, a staff ready to intervene in the event of an emergency in terms of safety and to manage alerts in real time along with the use of the most appropriate troubleshooting measures.

CONSULTING AND COMPLIANCE

SECURITY & SAFETY

TECHNOLOGY

INVESTIGATIONS

We are the ideal speaker for safety, security and compliance management in the enterprise, government and real estate sectors. Our integrated risk management system is unique in the market, combining experiences along with a high consulting level of advice.

A HIGHER SERVICE AND QUALITY LEVEL IN ENGINEERING DESIGN

UNITEDCONSULTING
engineering

“We have been involved in several prestigious projects. We have applied our capabilities to many sectors related to the construction industry, both in the public and private sectors”

We offer a wide range of services, assisting our customers in all aspects of building engineering. With specialists in the main disciplines of engineering, our approach is based on the multidisciplinary skills necessary to face any project with reliability.

United Consulting Engineering Srl is an integrated engineering company. Its divisions offer a complete range of planning and consultancy services: plants; structures; sustainability certifications; fire prevention; acoustic problems; job security. Its team of engineers work closely with architecture firms for a tailor-made service.

United Consulting is involved in numerous national and international projects and is specialized in interdisciplinary services related to plants and safety ex Legislative Decree 81/08. A mix of engineering, sustainability and consulting skills provided by a dedicated project team.

We have created a team structure divided into sectors:

M&E

SUSTAINABILITY

ACOUSTICS

HEALTH & SAFETY

LEGAL ENGINEERING

FIRE CONSULTANCY

DESIGN AND PROJECT MANAGEMENT

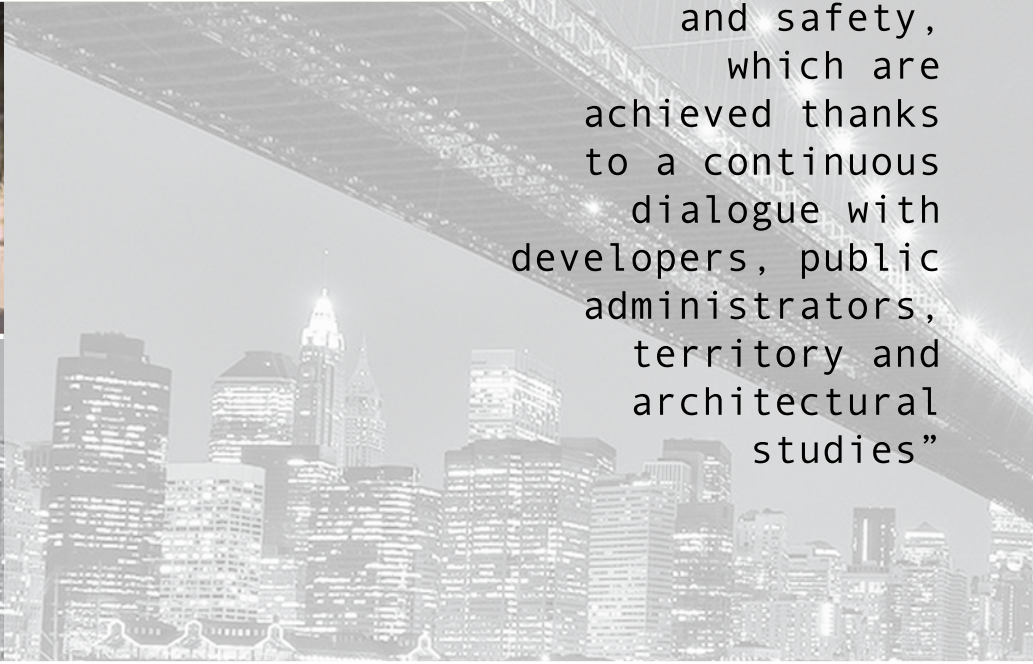

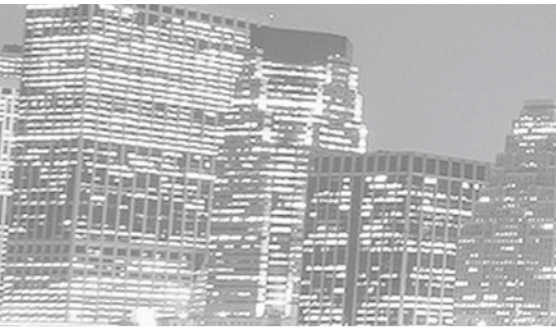

A black and white photograph showing a city skyline, likely New York City, viewed from under a large bridge. The bridge's structure, including its massive concrete beams and steel trusswork, dominates the upper half of the frame. Below the bridge, the city skyline is visible, with numerous skyscrapers and buildings. The foreground shows the water of a river or harbor, with reflections of the city and the bridge. The overall scene is a dramatic, low-angle shot that emphasizes the scale of the urban environment.

WE TRANSFORM DEGRADED URBAN AREAS INTO NEW LIVING ENVIRONMENTS

“We are specialized in designing and regenerating spaces through solutions for urban well-being and safety, which are achieved thanks to a continuous dialogue with developers, public administrators, territory and architectural studies”

Our vision: today designing urban spaces and solutions for territorial governance, means tackling the issue of citizens' safety and well-being. This is why we create bridges among all the actors involved in all processes of urban generation, by analyzing, listening to the needs, providing solutions and answers.

U.lab Srl is specialized in urban regeneration projects thanks to strategic solutions whose targets are aimed at urban safety and well-being. Its territorial governance solutions make re-thinking about and revitalizing degraded areas possible, restoring value to environmentally compromised areas whose safety is at risk. It acts thanks to a constant dialogue with public administrations and real estate operators and architectural studies, whilst creating synergies and connections. It designs smart and sustainable innovative areas for a high quality of life.

U.lab is composed by professionals specialized in the processes of territorial governance, in the management of public-private relations, in the coordination and development of projects on an urban scale whose target is aimed at safety and smart-living. U.lab is Labqus partner - Urban Quality and Safety Laboratory that was founded in 1998 at the Polytechnic of Milan. We are specialized in urban regeneration processes thanks to urban well-being and safety solutions. Our vision: today designing urban spaces and solutions for territorial governance, means tackling the issue of citizens' safety and well-being.

events, based
on the skills
and prestigious
experience acquired
over the years”

We operate through an integrated vision of all the aspects of security management: legality, safety, security and environmental safety with projects ranging from the execution of risk assessment to the implementation of sophisticated border security technologies and cybersecurity. We represent a point of reference on the Middle East market mainly in terms of management and support of important cultural, sporting and other events, scheduled in the near future. First of all, Expo Dubai 2020.

AFRICA
ME

United Risk Management Africa SA

is headquartered in Dakar and carries out risk assessment, risk analysis, mitigation plans, security design, technological scouting and cyber security projects for the African market. It deals with security at 360° implementing programs designed on the specific needs of both public and private organizations, construction sites or production sites, real estate projects, social housing and urban regeneration, to the interception of the needs of individual realities or people.

It is able to support employers, families, real estate and property owners, both public and private organizations, from any continent, in particular from UEMOA (Union Economique et Monétaire Ouest Africaine).

United Middle East Risk Management LLC

is headquartered in Abu Dhabi and offers an integrated consulting service for the management and organization of large events, in terms of security and safety. It operates on the Middle East market with a methodology that ranges from initial risk assessment to the use of the most modern border and cyber security technologies. In constant dialogue with public authorities and private companies, it is a point of reference for important events such as Dubai Expo 2020.

United Group has always been active in charity programs

UNICEF

2016: United joins the "Unicef friends" project: a series of life-saving interventions, including therapeutic aids, for children in the least fortunate areas of the world.

LIBELLULA PROJECT

May 2017: "The Libellula Project" was born, the first network of companies gathered in front of violence against women, of which United is one of the main characters offering its experience in the field of security.

FOUNDATION LA PELUCCA ONLUS

December 2017: United, thanks to Christmas charities, became part of the "Register of benefactors" of the Foundation La Pelucca Onlus, a reality linked to the territory of Sesto San Giovanni that for ninety years has been involved in providing assistance and reception services to the elderly.

AUDIOLOGICAL FOUNDATION VARESE ONLUS

United has been supporting The Audiological Foundation Varese Onlus for a few years. In 2003 it was recognized by the Regione Lombardia, its objective is to support the Audiovestibologia activities of the Varese Hospital, structure of excellence in the field of child deafness.
